

BBQ Grills & Manufactured Fire Pits

Requirements for Code Compliance

BBQ Grills

1. **Smoke** produced must not be a nuisance to any neighbor.
2. Must be in an **approved container** designed for that purpose.
3. Must be **10 feet** from any combustible material or structure, such as a house, garage or deck.
4. BBQ's are allowed on **concrete or masonry** balconies, as long as smoke is not creating a nuisance.
5. Only dry, seasoned **wood or charcoal** can be burned.

Fire Pits

1. The **smoke** produced must not be a nuisance to any neighbor.
2. Must be in an **approved container** designed for that purpose.
3. Must be **20 feet** from any combustible material or structure, such as a house, garage or deck.
4. Only dry, seasoned **wood or charcoal** can be burned, nothing else.
5. A **means to extinguish** the fire must be nearby, such as a fire extinguisher, garden hose or bucket of water.
6. A **metal cover** or lid must be available for covering the container when done.
7. Must be **attended by an adult** at all times of burning.
