Christopher Shields, BS EMTP
Emergency Preparedness Manager

Jason Pounds
Animal Control Officer

Ramiro Leon
Animal Control Officer

Kathleen Berens-Haas, BS, LEHP
Registered Sanitarian

Fred Blakey, Outreach

Significant Accomplishments of 2006

So what did all of our hard work result in last year?

A SMOKE FREE OAK PARK

The Board of Trustees passed the Oak Park Smoking Ordinance, prohibiting smoking in all public places and making Oak Park a healthier place to live and visit. This is the culmination of 6 years worth of work by Oak Park residents, local organizations and Village of Oak Park health department staff and Board of Health.

A RECERTIFIED OAK PARK HEALTH DEPARTMENT

After completing a comprehensive community health assessment and identifying Oak Park's top health priorities for the next 5 years, the Oak Park Health Department was recertified as a local health department by the Illinois Department of Public Health

A PREPARED OAK PARK

The health department and its partners worked hard on making Oak Park more prepared for emergency situations. 5,000 Family Emergency Preparedness packets were handed out, 24 Emergency Shelter sites were secured, and over 400 staff and volunteers were trained in emergency preparedness issues.

A WELL-RESOURCED OAK PARK

More programs were added to the Oak Park health department, giving residents more opportunities to become healthier individuals. Among these programs were

The Chronic Disease Self Management Program, helping residents with chronic illnesses such as heart disease, diabetes and arthritis learn to deal physically and emotionally with their disease, communicate effectively with family, friends and doctors, and evaluate new treatments is available;

Break the Habit, helping Oak Park residents obtain free smoking cessation patches for 8 weeks along with individual counseling sessions with the Illinois Tobacco Quit Line.

The Maze Know Your Numbers Program, expanding our Oak Park Main Library Know Your Numbers Program to our south Oak Park Residents for cholesterol, blood pressure, diabetes, and body mass screenings.

10 Essential Public Health Services-

These are examples of how the health department carried out the essential services in 2007 in Oak Park...

1. Monitor Health Status	Completed a Comprehensive Community Health Assessment
2. Diagnose and Investigate Health Problems	Ended syphilis outbreak
3. Inform, educate and empower people about health issues	Distributed emergency preparedness information through local schools
4. Mobilize community Partnerships	Convened Youth Summit with local agencies and parents
5. Develop policies and Plans	Developed five year community health improvement plan
6. Enforce Laws and Safety	Initiated local adjudication process for environmental and animal control citations
7. Link people to needed personal health services	Contracted with PCC Wellness Center (FQHC) to provide immunizations
8. Assure a competent workforce	All health department staff completed UIC Learning Management System assessment
9. Evaluate services	Incorporated key indicators progress into budget process
10. Research for new solutions	Developed food-borne illness instruments for national use

What do we want to do in the next few years?

There's still a lot of work to be done!

By 2011, we want to reduce...

1. OBESITY:

Reduce the proportion of obese adults from 18.3% to 15% and overweight or obese children to 5%

2. ALCOHOL AND OTHER DRUG USE:

Reduce the number of adults binge drinking from 14.4% to 6% and reduce the number of youth reporting alcohol use to 11%.

3. HIV/STDs:

Reduce the annual number of new Chlamydia cases by 25%

This can only be done if we work together as a village! See how we can work together by calling the health department.

2006 Community Contributions to Public Health

Who helped us in making Oak Park Healthy?

The Oak Park Board of Health and the Department of Public Health annually presents the Johnson's Restaurant Award to Oak Park food service establishments that excel in food service sanitation. The Fitzsimmons Award is given to local health and service providers who have made exceptional contributions to the health of the Oak Park community. Nominations were solicited through several health-driven coalitions around the Oak Park area, health department, schools, the Board of Health and local hospitals.

2006 FITZIMMONS AWARDEES

Darla De Wolff	Of West Suburban College of Nursing, for her commitment to training our future health care workforce for emergency preparedness
Audrey Falkenberg and Ione Heinitz	For volunteering their time with the health department's Know Your Numbers program, Older Adults Programs and flu clinics
Oak Park Public Libraries	For providing space at no charge to the health department for its programs
Patty Gross	Of Hephzibah, for assisting Oak Park families with securing resources needed for raising healthy children
Ellen Pimentel	Of District 97 Wellness Council for her work in advocating healthy lunches for school kids
District 97 PTO council	For being vocal and steadfast about introducing healthier meals to D97 schools
John and Susan Rozanski	For their commitment to the Village's Medical Reserve Corps
Oak Park Board of Trustees	For passing the Oak Park smoking ordinance
Elizabeth Lippitt	And the Infant Welfare Clinic, for their commitment to caring for the health of our children
Bobbi Hall and Dorothy Kodat	Of Holley Court for their work to bring light to pedestrian safety issues among Oak Park Senior citizens
Susan Stearns	Of the Volunteer Center for organizing the Team program and giving disabled residents opportunities to build confidence, socialize and renew work skills.
Brenetta Howell Barrett	For her commitment to HIV and STD education for teens through Fellowship Community Services' Being a Responsible Team program
Smoke Free Oak Park Clean Indoor Air Work Group	For working hard to bring a clean air ordinance to Oak Park
State Rep. Yarbrough	For developing a fair and responsible Oak Park Clean Air Ordinance
Karl Bader	For Sponsoring a bill for a smoke-free Illinois
Catherine Hart	Of S3 Kitchen for encouraging children to think about healthy eating through his healthy recipe contests
Downtown Oak Park	Of OPRF Day Nursery for offering valuable parental support networks and affordable full time pre-school and day care for Oak Park, River Forest and Forest Park residents
Chicago Bicycle Federation	For their "Bike and Shop" program that encouraged people to ride their bikes while shopping
	For the Bicycle ambassador program that educated children on safe bike riding practices while encouraging them to use their bikes for transportation
