

CAP the IKE Study Initial Public Outreach Workshop

7 p.m.
Thurs., Nov. 20
Village Hall Council Chambers
123 Madison St.

The Village of Oak Park has received a State of Illinois grant to examine the concept of covering over, or capping, the Eisenhower Expressway as a means of potentially addressing long-standing and ongoing concerns about the impact of I-290 on the community.

The first of many planned community outreach efforts, this initial kick-off meeting will ...

- Explain the study purpose and process
- Introduce the project team
- Provide an opportunity for citizens to participate in the process and make suggestions for issues to study and concerns to address
- Allow residents and business owners to communicate their thoughts, concerns, hopes and aspirations concerning the possible capping of the Eisenhower Expressway
- Gather input from participants to help form the foundation for the Village and Consultant Team to begin to assessing existing conditions, opportunities and constraints related to capping the Ike
- Assist the Village in responding to residents' concerns
- Guide future activities to effectively address the needs of the community
