North Fire Station to Close Temporarily for Repairs

Repairs to the plumbing, bathrooms and kitchen in the Fire Department's north station at 212 Augusta Blvd. will require closing the vintage building temporarily for brief periods in December and January.

The station will be closed from Monday through Thursday next week, and again for about two weeks beginning Jan. 5.

Personnel based at the Augusta site will relocate to the main fire station at 100 N. Euclid Ave. while the repairs are being made.

Should individuals come to the north station seeking assistance while the station is closed, a red telephone near the front, overhead door will provide a direct link to the emergency dispatch center.
