**Fire Department to test hydrants**

The Oak Park Fire Department will test fire hydrants beginning May 6 and continuing through May 25. Any cloudiness in the water should clear up if the tap is allowed to run for a few minutes.

Hydrants are tested annually to ensure proper operations in the event of an emergency.

For more information on the testing, call 445.3300 or email [fire@oak-park.us](mailto:fire@oak-park.us).
