Citizen input sought on community development plan

Resident input is being sought to help the Village create its *2010-2014 Consolidated Housing and Community Development Plan*, a process that will determine future project priorities for U.S. Department of Housing and Urban Development (HUD) funds in Oak Park.

The Village's consolidated plan will identify gaps in services, pinpoint and prioritize community needs and provide strategies to address the needs in affordable housing, infrastructure, public facilities, economic development, public services, historic preservation, planning and other development and housing areas. Citizen input is important to ensuring the information is accurate.

Oak Park residents are invited to complete a needs survey posted at www.oakpark.us – just mouse over the *Departments* tab, click on *Community Development* and look for the link. A public hearing also is scheduled for 5 – 7 p.m., Wed., July 8, at [Village Hall](#), 123 Madison St.

For more information on the consolidated planning process, the survey and public needs hearing, call 708.358.5419 or e-mail planning@oak-park.us.
