To: Residents of the 1100 block of S. Cuyler

Dear Resident:

The Village of Oak Park awarded a contract to Knowles Construction of New Lenox, Illinois for replacement of the water and sewer mains and reconstruction of your street. The contractor will be working on the 1000 block of Cuyler this spring and will start work on your block in early June when Irving School is out of session. The contractor will be working at the Harvard intersection during spring break, March 28th to April 1st. We will remove the one-way restriction on your block while we have the Harvard intersection closed for construction. The Village will send notices regarding construction as well as parking passes for residents with driveways prior to work occurring on your block.

We apologize for any inconvenience this project may cause and ask for your patience during these next few months. Should you have any questions or concerns please feel free to call Tom Tretowicz (Engineering Technician) 358-5731, or myself at 358-5728.

Sincerely,
THE VILLAGE OF OAK PARK
