RE: Oak Park Street Maintenance

Dear Residents and Business Owners:

The Village of Oak Park has awarded a contract to AC Pavement Company for routine street maintenance consisting of crack filling and micro-surfacing.

Streets are selected for these operations based on a Pavement Management Program, historical maintenance records and engineering judgment. The materials are designed to reduce the infiltration of water and limit further deterioration of the pavement surface.

The work will begin in early August depending on weather conditions and contractor scheduling. Each operation requires full closure of the block to traffic and parking for about half a day. The contractor will post "No Parking" signs in advance of the work on your block.

Please avoid walking or parking on the material - especially in hot weather - for a couple of hours. Daily work begins at approximately 7AM and ends by 6PM.

We kindly ask for your cooperation and patience during this project. Should you have any questions please feel free to email me at lbrown@oak-park.us or call me at 708-358-5729.

Sincerely,
VILLAGE OF OAK PARK

Lori Brown, P.E.
Civil Engineer
