RE: Oak Park Street Maintenance

Dear Harrison Street Residents and Business Owners:

Harrison Street from Ridgeland to the alley east of Humphrey will be crack filled and then micro surfaced by AC Pavement Company beginning in early August. The materials are designed to reduce the infiltration of water and limit deterioration of the pavement surface, thereby prolonging the life of the pavement. Pavement striping and decorative cross-walk installation will follow the micro surfacing operation.

The micro surfacing will be applied in four sections. To apply the material efficiently and get the street reopened as quickly as possible, full street closures will be required. The first day will be from Ridgeland to Highland, the second day from Highland to Lombard, the third day from Lombard to Lyman and the fourth day from Lyman to Austin. For each section we will begin early in the day and reopen the street in the afternoon. 'No Parking' signs will be posted 48 hours in advance of the work.

We kindly ask for your cooperation and patience during this project. Should you have any questions please feel free to email me at [lbrown@oak-park.us](mailto:lbrown@oak-park.us) or call me at 708-358-5729.

Sincerely,  
VILLAGE OF OAK PARK

Lori Brown, P.E.  
Civil Engineer
