The memo is a means to share a brief summary of information regarding Village of Oak Park operational activities in response to COVID-19. In most cases, formal public guidance or employee guidance has been publicly disseminated via the Village website or Village social media channels.

**New Public Health Guidance**

Today, the Village of Oak Park Department of Public Health received notification of the following new COVID-19 cases: 2 Oak Park residents that range in age from 20s to their 60’s.

Excluding individuals for which street addresses are not yet determined, the State of Illinois reports a total of two-hundred and eighty-one (281) total Oak Park COVID-19 cases. It is important to note that as patient tracking and case follow-up occurs, individuals listed within the number of Oak Park cases reported may change depending on residency confirmation.

The Oak Park Department of Public Health is notified of positive tests as established by state and local public health protocol. Because of privacy laws, no additional information can be released about the individuals. It is noted, that privacy precludes location information regarding individuals tested to anyone other than Public Health Officials and First Responders.

The Oak Park Department of Public Health is working closely with officials from the Illinois Department of Public Health (IDPH), investigating and notifying anyone who may have had exposure to the individual who tested positive for COVID-19. Local public health officials, hospitals and first responders are following protocols consistent with the latest guidance from the Centers for Disease Control and Prevention (CDC).

## **Restore Illinois**

Earlier today, Public Health Director Charley emailed more than 1,000 Oak Park business license holders to ensure they are aware of the State of Illinois [Phase 3 guidelines for business operations](#) as well as [business toolkits](#) containing resources to help businesses comply with public health recommendations.

It was noted that Phase 3 guidelines span 10 different industry categories. Each category includes a common set of guidelines that all employers and activity types are expected and encouraged to follow, as well as workplace and program-specific guidelines.

Additionally, business license holders were reminded that the State has not yet set an official date for moving into Phase 3 (the Governor has stated that all regions of the state will likely enter Phase 3 of the plan on Friday, May 29, 2020) and therefore the Village of Oak Park is planning for this to occur as early as Friday, May 29. Businesses were also provided a list of staff members who are tasked with working directly with each unique group as Illinois moves into Phase 3 of [Restore Illinois](#).

The Oak Park Public Health Department is working closely with the Village's Department of Development Customer Services to assist business owners and operators during the pandemic. Local information for businesses and other organizations is posted on the Village website at [www.oak-park.us/businessguidance](http://www.oak-park.us/businessguidance).

Additionally, Director Charley emailed all Oak Park licensed child care centers to provide specific guidance issued by the state regarding reopening child care in Illinois. Issued by the Illinois Department of Public Health (IDPH) the information is especially important for licensed child care centers & homes to reopen as the State enters Phase 3 of the Restore Illinois plan. While many child care homes and centers have been open and providing emergency care to the children of essential workers during the COVID-19 public health crisis under an emergency license obtained through DCFS, the majority of licensed child care programs have been closed during Phases 1 and 2 of the [Restore Illinois Plan](#). Starting in Phase 3 and continuing through Phase 4, child care providers are encouraged to reopen subject to guidance from the Illinois Department of Public Health to serve the many families who will be returning to work.
