**COVID-19 Status Report
Oak Park Village Board of Trustees**

To: Village President and Village Board of Trustees

Fr: Cara Pavlicek, Village Manager

The memo is a means to share a brief summary of information regarding Village of Oak Park operational activities in response to COVID-19. In most cases, formal public guidance or employee guidance has been publicly disseminated via the Village website or Village social media channels. *This report is provided Monday thru Friday.*

New Public Health Guidance

Today, the Village of Oak Park Department of Public Health reported no additional cases of COVID-19.

Excluding individuals for which street addresses are not yet determined, the State of Illinois reports a total of three-hundred and six (306) total Oak Park COVID-19 cases. It is important to note that as patient tracking and case follow-up occurs, individuals listed within the number of Oak Park cases reported may change depending on residency confirmation.

The Oak Park Department of Public Health is notified of positive tests as established by state and local public health protocol. Because of privacy laws, no additional information can be released about the individuals. It is noted, that privacy precludes location information regarding individuals tested to anyone other than Public Health Officials and First Responders.

The Oak Park Department of Public Health is working closely with officials from the Illinois Department of Public Health (IDPH), investigating and notifying anyone who may have had exposure to the individual who tested positive for COVID-19. Local public health officials, hospitals and first responders are following protocols consistent with the latest guidance from the Centers for Disease Control and Prevention (CDC).

Also today, Public Health Director Mike Charley issued guidance for residents who wish to hold a Garage Sales on private property during Phase 3 of Illinois Governor J.B. Pritzker's Restore Illinois plan, which expressly assigned such regulation to local communities and that guidance is posted on the Village website at <https://www.oak-park.us/sites/default/files/health/covid-19-packets/guidelines/2020-06-12-public-health-garage-sale-guidelines.pdf>.

Cases related to Long-Term Care and Assisted Living Facilities

The Oak Park Public Health Department reported no changes today related to Long-Term Care and Assisted Living Facilities.

Facility Name	# of Resident Cases	# of Resident Deaths	# of Staff Cases
Belmont Village of Oak Park	2	2	4
Berkeley Nursing & Rehab Center	3	2	1
Brookdale Oak Park	7	1	7
Oak Park Arms	6	1	3
Oasis of Oak Park	23	10	6

Personal Protective Equipment (PPE)

As noted early in the week, the Oak Park Public Health Department, as a Certified Public Health Department, has received a shipment of PPE from the Illinois Emergency Management Agency (IEMA). The items have been inventoried and allotted to the Village's public health and public safety needs, which are inclusive of supporting the Farmers Market and preparing for the Early Voting process which will occur this Fall. As part of the Village's response to the COVID-19 pandemic, through today the Village delivered masks to 93 restaurants, a total of 4,400 surgical masks. Grocery stores and additional retailers will be delivered masks next week. The PPE is intended to provide businesses with a small supply in the event the encounter delivery delays of PPE through the open market.

Also, through the Village's public health supplies, today the Oak Park Public Health staff is also able to provide masks to residents testing positive for COVID-19 and Oak Park close-contacts. Arrangements are made as part of the contact tracing done by the Public Health staff.
