**COVID-19 Status Report
Oak Park Village Board of Trustees**

To: Village President and Village Board of Trustees

Fr: Cara Pavlicek, Village Manager

The memo is a weekly status report presented Wednesdays and provides a brief summary of information regarding Village of Oak Park operational activities in response to COVID-19, with an increasing focus on vaccination administration and allocation. In most cases, formal public guidance or employee guidance has been publicly disseminated via the Village website or Village social media channels.

New Public Health Guidance

Today, the Village of Oak Park Department of Public Health received notification of the following new COVID-19 cases:

<u>Date</u>	<u># of Cases</u>	<u>Age of Cases</u>
April 8 th	10	<20 to 50s
April 9 th	9	<20 to 50s
April 10 th	9	<20 to 70s
April 11 th	7	<20 to 50s
April 12 th	5	<20 to 50s
April 13 th	7	<20 to 70s
April 14 th	6	<20 to 70s

Excluding individuals for which street addresses are not yet determined, the State of Illinois reports a total of two thousand nine hundred and ninety-one (2991) Oak Park COVID-19 cases. It is important to note that as patient tracking and case follow-up occurs, individuals listing the number of Oak Park cases reported may change depending on residency confirmation.

The Oak Park Department of Public Health is notified of positive tests as established by state and local public health protocol. Because of privacy laws, no additional information can be released about the individuals. It is noted, that privacy precludes location information regarding individuals tested to anyone other than Public Health Officials and First Responders.

The Oak Park Department of Public Health is working closely with officials from the Illinois Department of Public Health (IDPH), investigating and notifying anyone who may have had exposure to the individual who tested positive for COVID-19. Local public health officials, hospitals and first

responders are following protocols consistent with the latest guidance from the Centers for Disease Control and Prevention (CDC).

Vaccination Dashboard through April 12, 2021

Total Doses Administered by Oak Park Public Health Department	8,183
Doses Allocated to Oak Park Hospitals & other Vaccination Partners	13,294
Doses Administered by Oak Park Public Health Department Week of April 5	1,055
Doses Administered by Oak Park Public Health Department Week of March 29	916
Oak Park Residents Fully Vaccinated	14,874

The Oak Park Public Health Department is following the CDC recommendation to pause distribution of the Johnson & Johnson COVID-19 vaccine while extremely rare side effects come under review. As a result, all upcoming vaccinations appointments which were planned with Johnson and Johnson are now offering the Moderna vaccine, which requires two doses for long-term efficacy.

The Village's Public Health Department continues to administer vaccinations by appointment only. Appointments can be scheduled with the Village by pre-registering at www.oak-park.us/vaccine.

The Village is registering all residents age 16 and older currently as well as Phase 1a and Phase 1b essential workers who are eligible under the definitions found in the Illinois COVID-19 Vaccination Plan issued by the Illinois Department of Public Health and most recently updated on MARCH 20, 2021, Version V7.0.

Vaccination appointments for Village run clinics are currently being extended to Phase 1 and Phase 2 eligible residents and essential workers.

It is important to note, that with the new eligibility for youth as young as 16 years old, as of this date, only Pfizer has been authorized for those ages 16 and older. All other vaccines are currently authorized for emergency use in the U.S. only for those ages 18 and older. When the Village extends an invitation for an appointment to receive a vaccine, manufacturer is noted and invitations are only intended for those individual who meet minimum age eligibility and proof of date of birth is verified at the time of vaccination.

Public Health Data

“New cases per 100,000 People”. This metric looks at the number of recent COVID-19 cases per 100,000 people to describe the potential number of people who are currently ill and may be infectious. This is the number of new cases reported by IDPH in the previous week. Calculated as a rate = [Village of Oak Park case count for 7 days] / [Village population] x100,000. The State is using this metric, <https://www.dph.illinois.gov/countymetrics?county=Cook> as one of several indicators that measure the health burden of COVID-19 in each Illinois County.

- Oak Park rate: 102/100,000
- Cook County rate: 161/100,000 (3/28/2021 to 4/3/2021)
- Target for County-level data: Cases for the week are fewer than 10 or the rate is fewer than 50 cases per 100,000 people
- Warning for County-level data: New case rate is greater than 50 cases per 100,000 people

AGE RANGE DATA – OAK PARK

Age Range	Total	% of Cases
0-4	77	2.6%
4-13	163	5.4%
14-19	287	9.6%
