

**VILLAGE OF OAK PARK
TRANSPORTATION COMMISSION MEETING
THURSDAY, NOVEMBER 9, 2017 - 6:00 PM AND AGAIN AT 8:00 PM
THE COMMONS ROOM AT GWENDOLYN BROOKS MIDDLE SCHOOL
325 S. KENILWORTH AVENUE**

AGENDA

1. Call to Order
2. n/a
3. n/a
4. n/a
5. **PARKING PILOT PUBLIC FORUM**
 - 5.1 Staff Agenda Item Commentary
 - 5.2 Invitation for Community Forum
 - 5.3 Wednesday Journal Article - Oak Park weighs overnight parking changes
 - 5.4 VOP Website News Release
 - 5.5 History of the Overnight Parking Ban in Oak Park (Drafted for VBOT on 10.29.13)
6. OTHER ENCLOSURES

n/a
7. Adjourn no later than 9:00 PM

Please call (708) 358-5724 if you are unable to attend

If you require assistance to participate in any Village program or activity, contact the ADA Coordinator at (708) 358-5430 or e-mail building@oak-park.us at least 48 hours before the scheduled activity.

Village Of Oak Park

Transportation Commission Agenda Item

Item Title: Presentation and Community Forum on Parking Pilot Program
--

Review Date: November 9, 2017

Prepared By: Parking and Mobility Services

Abstract (briefly describe the item being reviewed):

Earlier this year the Village Board began reviewing ways to streamline the wide array of parking rules and regulations by gathering public input on various parking topics during a series of special meetings, community forums and online comments.

In order to balance need with supply, available spaces have been managed through parking regulations put in place over time, typically driven by residents petitioning the Transportation Commission in what became a near block-by-block approach. The result of this approach is a complicated web of rules spelled out in 120 parking ordinances and communicated on more than 10,000 signs throughout the Village.

Months of studying Oak Park’s wide array of parking rules and regulations is evolving into a pilot program designed to test a wide range options for simplifying and standardizing the Village’s residential parking system.

The public is invited to learn more about the changes under consideration at a community meeting set for 6 p.m. to 9 p.m. on Thurs., Nov. 9 at Gwendolyn Brooks Middle School, 325 S. Kenilworth Ave. Recommendations will be presented by the Village parking consultant, Dixon Resources Unlimited, at 6 p.m. and again at 8 p.m., with time set aside for residents and stakeholders to ask questions and offer feedback on the proposals.

The proposed pilot area is from Harlem Avenue east to Oak Park Avenue and South Boulevard south to Harrison Street. This area was chosen because it contains virtually every parking challenge in Oak Park with single-family and multi-family residences overlapping with commuter and business parking.

Stakeholders from beyond the pilot area are encouraged to participate in the planning process, however, since public feedback will be a factor in determining if the changes tested in the pilot program should be implemented in other parts of the Village.

At the January 23, 2017 Village Board Study Session, the Board approved a monthly schedule of topics.

The current topic included a study of Parking near & adjacent to Public Transit/Residential/Mixed Use Areas – Metra, CTA Green Line, CTA Blue Line and looking at the overall parking rules and needs in these areas. These areas were specifically designated as Randolph Street to Lake Street and Harvard Street and Jackson Boulevard. This subject area will be discussed over several meetings.

Topics for discussion are as follows:

- overnight on-street permit parking restrictions
- on-street daytime restrictions
- temporary overnight and daytime guest parking passes
- commuter parking
- employee and customer parking
- meters and lots
- off-street permit lot parking
- snow, leaf and street cleaning restrictions

Based on community input, recommendations for a parking pilot program will be reviewed by the Transportation Commission on Nov. 27 and then presented to the Village Board to consider implementation in 2018.

Staff Recommendation(s):

Major Parking Changes Coming to Your Area

Invitation to Parking Forum on Parking Pilot Program

Dear Neighbor:

The Village of Oak Park, in conjunction with parking consultant Dixon Resources Unlimited, is studying major changes to parking in your area.

To make sure your concerns and issues are considered in the planning process, the citizen volunteers on the Transportation Commission will host a public forum from 6 to 9 p.m., Thurs., Nov. 9 at Gwendolyn Brooks Middle School, 325 S. Kenilworth Ave. The proposed changes will be presented at 6 p.m. and again at 8 p.m.

Changes under consideration will affect a wide range of current parking regulations, including those that govern overnight on-street permit parking restrictions, temporary overnight and daytime guest parking passes, on-street daytime restrictions, commuter parking, employee and customer parking, meters and lots, off-street permit lot parking, and snow, leaf and street cleaning restrictions.

Based on community input, recommendations for a parking pilot program will be reviewed by the Transportation Commission and then presented to the Village Board to consider for implementation in 2018.

Stakeholders in the pilot area are encouraged to participate in the planning process since feedback from the public will help determine recommended changes.

If you are unable to attend the forum but still want to be involved, visit www.oak-park.us/parkingpilot where notes and materials from the presentation and proposed changes will be posted after the public forum and public comments accepted.

Thank you for your helping in this important public process.

Sincerely,

Parking and Mobility Services

Oak Park weighs overnight parking changes

Public meeting slated for Nov. 9 at Brooks Middle School

Staff Reporter

Changes to Oak Park's overnight parking regulations may be on the way, and the village is encouraging residents to provide their input at a meeting set for Nov. 9.

The Oak Park Transportation Commission has been studying possible changes to parking in the village with transportation consultant Dixon Resources Unlimited and is considering easing restrictions for overnight parking for those with permits and overnight passes.

Under the current system, those with an overnight parking pass – the village allows up to 10 a month – can park anywhere, except for areas designated for those with parking permits.

A new system being considered by the Transportation Commission would allow residents with passes to park in permit zones and vice versa.

"The proposal is you can have a parking pass or a parking permit [and] you can park anywhere within the geographical area on odd days on the odd side of the street and on even days on the even side of the street," said Tammie Grossman, director of development customer services.

The proposed boundaries for a possible pilot program are Oak Park Avenue, Harlem Avenue, South Boulevard and Harrison Street, but those boundaries could change as a result of the Nov. 9 meeting.

John Youkhana, division manager of Oak Park Parking and Mobility Services, said in a telephone interview that the pilot program is still just a proposal, and transportation planners are hoping for a good turnout at the Nov. 9 meeting, which will be held from 6 to 9 p.m. at Gwendolyn Brooks Middle School, 325 S. Kenilworth Ave.

Following the meeting, the Transportation Commission will deliberate on feedback from the community and make a recommendation to the Oak Park Board of Trustees.

The village is encouraging everyone to attend the meeting, because if the pilot program is approved by the Oak Park Board of Trustees next year and is successful, it could expand to other parts of the village.

Other proposed changes in parking also will be discussed at the meeting, including "on-street daytime parking restrictions, commuter parking, employee and customer parking, meters and lots, off-street permit lot parking, and snow, leaf and street cleaning restrictions," according to the meeting announcement from the village of Oak Park.

Proposed changes discussed at the meeting will be posted online at www.oak-park.us/parkingpilot.

Pilot program to test major changes to parking regulations

Nov. 1, 2017 – Months of studying Oak Park's wide array of parking rules and regulations is evolving into a pilot program designed to test a wide range of options for simplifying and standardizing the Village's residential parking system.

The public is invited to learn more about the changes under consideration at a community meeting set for 6 to 9 p.m. on Thurs., Nov. 9 at Gwendolyn Brooks Middle School, 325 S. Kenilworth Ave.

Recommendations for a pilot project will be presented at 6 p.m. and again at 8 p.m., with time set aside for residents and stakeholders to ask questions and offer feedback on the proposals.

The proposed pilot area is from Harlem Avenue east to Oak Park Avenue and South Boulevard south to Harrison Street. This area was chosen because it contains virtually every parking challenge in Oak Park with single-family and multi-family residences overlapping with commuter and business parking.

Stakeholders from beyond the pilot area are encouraged to participate in the planning process, since public feedback will be a factor in determining if the changes tested in the pilot program should be implemented in other parts of the Village.

Anyone unable to attend the forum but who still wishes to be involved in the process can visit www.oak-park.us/parkingpilot where a recording of the presentation along with notes and materials outlining the proposed changes will be posted after the public forum. Public comments also will be accepted on the page.

Search for parking solutions

Changes under consideration would affect most current parking regulations, including those that govern overnight on-street permit parking restrictions, on-street daytime restrictions, temporary overnight and daytime guest parking passes, commuter parking, employee and customer parking, meters and lots, off-street permit lot parking, and snow, leaf and street cleaning restrictions.

Much of Oak Park was developed in the early 20th century long before the numbers of vehicles reached today's levels. In the decades since, parking has become a scarce resource in the Village, officials say, particularly in neighborhoods near the Village's business districts and multifamily housing.

In order to balance need with supply, available spaces have been managed through parking regulations put in place over time, typically driven by residents petitioning the Transportation Commission in what became a near block-by-block approach. The result of this approach is a complicated web of rules spelled out in 120 parking ordinances and communicated on more than 10,000 signs throughout the Village.

Understanding the process

Earlier this year the Village Board began reviewing ways to streamline the wide array of parking rules and regulations by [gathering public input on various parking topics](#) during a series of special meetings, community forums and online comments.

These meetings, forums and comments led to the pilot project proposals that will be presented at the upcoming meeting at Brooks Middle School.

Based on community input, recommendations for a parking pilot program will be reviewed by the Transportation Commission on Nov. 27 and then presented to the Village Board to consider for implementation in 2018.

If approved, the pilot program is expected to run for nine months. Data gathered during the pilot will be used to help guide decisions about broader geographic implementation.

The Nov. 9 public meeting will be hosted by the citizen volunteers on the Transportation Commission, Village staff and consultant [Dixon Resources Unlimited](#).

NEWS LINKS

History of the Overnight Parking Ban in Oak Park

A. Overnight Parking Ban

The Village of Oak Park has had an on-street overnight parking ban in effect since at least 1937. The Village originally prohibited parking from 2:00 a.m. to 6:00 a.m. on all Village streets. In 1939, the code was amended to change those hours to 2:30 to 6:00 a.m.

B. Establishment of Overnight Parking in Parking Enclaves

In 1980, the Village first addressed the demand for overnight parking by adopting an ordinance, 1980-O-33, which established overnight parking in enclaves. The ordinance outlined a process by which the Board could establish overnight parking enclaves in cul-de-sacs and curb cuts in the parkway in high demand areas. Enclave parking was limited to permit holders who resided within 4 blocks of the enclave or designated area.

Shortly thereafter, in 1980, the Board also adopted ordinances designating the Chicago and Northwestern train embankment as an area where overnight parking was permitted, as well as areas along the Eisenhower expressway.

In 1986, the ordinance was amended so that enclave parking could only be established in areas where it would not have a negative impact on police protection. The parking enclave ordinance is now codified in Section 15-3-15 and 16 of the Village Code. The requirements are as follows:

- Curb cuts and cul-de-sac parking enclaves must be separate from the physical flow of normal street traffic.
- Enclaves will also be permitted adjacent to the Chicago and Northwestern or Eisenhower Expressway embankments, as parking in these unique areas does not affect street cleaning or leaf and snow removal to as great an extent as normally traveled street areas.
- The proposed parking enclave will not have a substantial negative impact on police protection.
- The area must be in or adjacent to areas having the severest parking space shortages in the Village.
- Curb cut parking enclaves shall not be permitted if there is a substantially negative effect on grassed parkways.
- Parking by monthly permit.
- Parking only for residents of the surrounding four block area.
- Parking from six o'clock (6:00) P.M. to eight o'clock (8:00) A.M., except as modified by resolution of the Village Board, based on unique parking needs of the area.

In order to provide additional off street parking, the Village also owns or leases 38 off street parking lots where overnight parking is available by permit.

C. On-Street Overnight Parking

In 1988, in a continuing effort to address the demand for overnight parking, the Village Board adopted Ordinance 1988-O-58, which first established on-street, overnight permit parking in certain R-7 multi-family zoning districts on a two year trial basis. The Village found that the overnight parking ban enhanced police surveillance, and allowed public works street maintenance operations, such as street sweeping, leaf pick up and snow plowing to occur. However, the lack of parking for residents of multi family buildings created an economic hardship on rental property owners because it limited tenants to those without vehicles. In addition, due to a lack of legal overnight parking, residents were parking illegally to the extent that 160,000 tickets were issued in the eighteen month period from January 1987, to June 1988. These illegal parkers thwarted the goals of the overnight parking ban. To meet the competing demands, the ordinance established the following:

- On street overnight parking permitted in certain designated R-7 zoning districts shown on a map, except for blocks where single family homes occupy more than 50% of the street frontage.
- Permit zones may be created by a petition of 51% of the residents in the area, or by staff referral. The Village Board then refers the matter to the Parking and Traffic Commission (now the Transportation Commission) for hearing.
- Parking and Traffic must find that there is a severe shortage of parking in the area and that there are no reasonable alternatives to on-street parking.
- Parking for residents only which must be established by ID and Village vehicle sticker.
- Permits not available to residents who live within 2 blocks of an available off street parking space.
- Parking limited to one vehicle per dwelling unit.
- Parking by permit in 90% of the available spaces in a designated zone. The remaining 10% reserved for guests.
- Parking on alternate sides of the street between 6:00 p.m. to 8:00 a.m., except as varied by resolution adopted by the Village Board for a particular area.
- Parking fees which exceed the cost of administering the system are deposited into an Off-Street Parking Fund.

In 1990, by Ordinance 1990-O-30, the Village Board extended the two year trial period of the on street parking system for an additional five years, noting that every parking space created by this system was sold in 1990. This ordinance also established that in order to purchase a permit, the vehicle owner can not have any outstanding parking tickets.

In 1991, by Ordinance 1991-O-14, the Village expanded the overnight parking zones to include the street frontage across the street from the previously established zones (so that the established system of alternate side parking would include the other side of the street.)

In 1994, by Ordinance 1994-O-60, the Village made on street overnight parking permanent by removing the “trial basis” language, noting that since its inception, all available parking spaces were sold. The Board found that the percentage of tenants who do not own vehicles is decreasing, while the percentage of households owning two or more vehicles continues to increase. The Village Board found that the stability of the Village’s multi-family housing stock is directly affected by a lack of available parking, which was the primary cause of turnover in multi-family buildings. At the time this ordinance was adopted, forty-nine (49%) of multi-family residential housing units did not have on-site parking and over 2,000 vehicle owners were still in need of parking.

The highlights of the 1994 ordinance are as follows:

- On street overnight parking is permanent (trial basis removed)
- Parking on both sides of the street (as opposed to alternating sides) from 2:30 a.m. to 8:00 a.m.
- Ninety percent (90%) of available street footage in a zone is permit parking.
- Permits are restricted to residents
- Ten percent (10%) of available parking spaces are reserved for visitors
- Permits not available to residents who have off street parking available within one block of their residence
- No permit may be sold to an individual who has outstanding parking tickets
- More than one permits may be sold per household, but only if excess parking is available after the due date for permit renewals (so that each household had a chance to obtain one permit)
- Parking is prohibited between the hours of 8:00 a.m. and 10:00 a.m. to allow for street sweeping, snow removal and leaf pick up
- Permissible overnight parking zones were expanded to:
 - areas where at least one side of the street is in an R-7 zoning district
 - areas adjacent to an R-7 District in a less restrictive zoning district (B or C)
 - streets in front of public property

- an area along Pleasant Street between Kenilworth and Grove in an R-6 zone
- No overnight parking zones may be established in areas where more than fifty percent (50%) of the linear feet of a block is occupied by single family homes, a church, a school, or a public park.

In 1995, the Village adopted Ordinance 1995-O-68 to further expand the areas where on street overnight parking may be established to include:

- Streets adjacent to properties located within 500 feet of an R-7 zoned district which contains a multi-family dwelling of four or more units which is owned and operated as a legal, non-conforming use
- Portions of streets where at least one side is adjacent to an R-7 zoning district
- Streets adjacent to public property which is adjacent to an R-7 multi-family district
- Streets in front of multi-family buildings without regard to the percentage of single-family footage on the block.

In 1996, the Village adopted Ordinance 1996-O-83 which changed the “no parking from 8:00 a.m. to 10:00 a.m.” restriction so that street maintenance activities could occur between 8:00 a.m. to 10:00 a.m., or 1:00 p.m. to 3:00 p.m., or 3:00 p.m. to 5:00 p.m. This was in response to the operational impossibility of performing street maintenance activities in all on-street parking zones during a single two hour window.

In 2004, the Village adopted Ordinance 2004-O-07 which sought to further address the need for times when street maintenance activities could be performed by permitting on street overnight permit parking from 9:00 p.m. to 10:00 a.m., six days a week, except on the north and east sides of the street on Tuesdays, and on the south and west sides of the street Wednesdays, when parking terminates at 8:00 a.m.. This ordinance also clarified that parking on the reserved ten percent (10%) of the overnight permit zones was still subject to the overnight parking ban. This made sure that those reserved spaces would be available to a variety of users, rather than being open and unregulated parking.

In 2005, by Ordinance 2005-O-22, the Village further expanded the permissible areas for on-street, overnight parking zones to include street frontage adjacent to property within 500 feet of an R-7 multi-family zone or within 500 feet of a retail or commercial zone adjacent to an R-7 zone.

In 2008, by Ordinance 2008-O-10, the Village again expanded the permissible on street overnight parking zones by amending the language prohibiting zones from being established in areas where more than 50% of the street frontage is occupied by single family homes, a church, a school or a public park to remove the latter three uses from the calculation.

2011	16,772	
2012	17,508	

E. Short Term parking passes

Aside from reserving ten percent (10%) of permit parking zones for visitors in multi family areas, the Village has not formally established a system of on street parking for visitors of either multi family or single family residents, including guests, care givers, contractors, or for the occasional short term needs of residents for parking beyond what they legally have, such as during reconstruction of an existing garage, due to a medical need, or when permit holders who do not have 24 hour parking permits leave town.

Instead, the Village has addressed these short term needs by an administrative system of passes which allow parking outside the overnight permit zones, such as in single family districts.

The Village has undertaken various initiatives to formalizing the pass system since 1995. A 1998 file memo noted that staff generated 10,000 passes per monthly at that time, with 91% being for overnight parking. With the establishment of more legal overnight parking over the years, staff now issue 72,000 on-street overnight, daytime and extended parking passes to residents and their visitors. Further details of this pass system are beyond the scope of this memo.

F. Legal Authority to Regulate Parking on Public Streets

The Illinois Vehicle Code empowers municipalities to use their police power “to regulate the standing or parking of vehicles,” 625 ILCS 5/11-208, with certain limitations not relevant to this discussion.

In 1975, the Village’s overnight parking ban was challenged in a lawsuit brought by a parking ticketholder, *Flanagan v. Village of Oak Park*, 35 Ill.App.3d 6 (1st Dist. 1975). In the context of that lawsuit the court held:

It is clear that a municipality has the authority to regulate parking, and the only remaining question is whether the exercise of that authority is reasonable.

Oak Park established the reasonableness of the overnight parking ban in the *Flanagan* case testimony that the ordinance assists with snow and leaf removal and street sweeping; and minimizes auto thefts, facilitates the discovery of stolen cars, and eliminates hiding places for criminals. While these reasons were sufficient to establish the reasonable basis for the overnight parking ban, they are not the only valid factors the Village Board may consider in determining how to regulate parking. Instead, the Village may regulate parking on the public streets in any manner that is reasonable, so long as the regulation serves a public purpose.

Courts generally defer to the wisdom of local governments in determining what is “reasonable.” In *City of Crystal Lake v. Cunningham*, 52 Ill.App.3d 819 (1977), a similar parking ticket challenge, the court held that even though the city offered no specific evidence as to the reasonableness of its overnight parking ban ordinance, the parking ticket holder challenging the reasonableness of the ordinance was required to offer convincing proof that the ordinance bears no reasonable relation to a legitimate exercise of municipal police power. In other words, a parking ordinance is presumed valid by the court unless a challenger can prove that there is no reasonable basis for the parking regulation. In *Evergreen Park v. Russell*, 102 Ill.App.3d 723 (1981), the court held that so long as the ordinance serves a public purpose, it is presumed valid. This gives the Village wide latitude to address the parking demand in the context of other valid public concerns, such as maintaining the residential character of neighborhoods, the value of both single family and multi family properties, the need for street maintenance activities, or any other public concern.

In *City of Milwaukee v. Hoffman*, 29 Wisc.2d 193 (Wis. 1965), a case from the Supreme Court of Wisconsin, the court upheld a Milwaukee ordinance which prohibits overnight parking on certain streets but allows individuals to park on those same streets if they purchase a permit. The court held that Milwaukee’s ordinance was a reasonable technique for regulating night parking on its streets. Courts have also held that it is reasonable for a municipality to allow parking for residents but not for non-residents, *County Board v. Richards*, 434 U.S. 5 (1977).

So long as the Village addresses present day realities in a reasonable manner, a parking ordinance will be upheld by the courts.

G. Conclusion

As is apparent by the above review, the Village has continually been asked to address the demand for overnight parking. Past efforts have attempted to balance the operational needs of street maintenance activities, the preservation of the residential quality of single family housing areas and the preservation of multi-family housing values with the need for parking. In 2006, the Village conducted a citizen survey which demonstrated that community members are sharply divided in their opinions on a host of proposals to change the way parking is addressed in the Village. The results of that survey are provided on the following page.

1. How many cars or trucks do you park overnight in the Village?	Survey Count
