

Bid Summary

Fire and Burglar Alarm Monitoring and Maintenance Services

7/22/2022

Company	Total Cost for Radio Installation *	Total Annual Cost for Testing and Monitoring Services
Alarm Detection Systems (ADS)	\$ -	\$ 2,489.37
Illinois Alarm Service	\$ 17,005.00	\$ 1,690.00

* Note: ADS cost for radio installation is zero because their radio equipment is already installed at all locations (ADS is the previous service provider). As long as ADS is the service provider, the cost for radio equipment will always be zero unless upgrades or replacements are needed. Any other vendor would have a radio installation cost (the radio equipment is the proprietary component of these services).
